Standard Notes: - Represents zero. (D) Withheld to avoid disclosing figures for individual

[illegible] Represents [illegible] shipments of the primary products indicated by the industry name less minerals purchased from, sold to other establishments for preparation or less minerals establishments for preparation.

[2]Represents expenditures during the year for both new and used plant and equipment.

[3]Figures for shipments of primary products of establishments classified in other industries are included with those for establishments classified in the specified industry.

[4]Figures for primary services performed in other industries are included with those for primary services by establishments classified in the specified industry.

[5]Represents thousands of barrels of crude petroleum, field condensate, and drips shipped or used.

[6]Excludes figures for minerals produced and used in the same establishment.

[7]The cost of minerals received for preparation is included with the cost of supplies, purchases for resale, and purchased fuels and electric energy.

[8]Figures for the value of shipments of primary products by establishments classified in other industries are included with those for the value of shipments of primary products by establishments classified in the specified industry. See also footnote *5.*

[9]Includes data for minerals produced and used in the same establishment in making manufactured products. The value of such products was estimated.
